## RESUME

I am a Computer Science student at UniRitter, focused on back-end development, with hands-on experience in Java (using Spring Framework) and Python (focused on automation and API development with FastAPI), acquired through academic and laboratory projects. My career path is marked by continuous learning and growth, including award-winning projects in Scientific Initiation and Innovation. I have strong problem-solving skills and the ability to tackle complex challenges, always seeking to improve my technical skills by delivering impactful solutions and contributing to the growth of the organization and my professional development.

## EDUCATION

### Elementary and High School (Completed)

2009 - 2023

- Colégio Marista Assunção

### Higher Education

2024/1 - 2024/2

- PUCRS – Bachelor's in Computer Engineering

### Higher Education (Currently Enrolled)

2024/2

- PUCRS – Bachelor's in Computer Engineering

## SKILLS

- |              |              |          |
|--------------|--------------|----------|
| • Java       | • FastAPI    | • Git    |
| • Spring     | • JavaScript | • GitHub |
| • PostgreSQL | • Node.js    | • AWS    |
| • MySQL      | • C          | • Kanban |
| • Python     | • Linux      | • Scrum  |

## ACHIEVEMENTS

- PUCRS Young Researcher Highlight – 2012
- UFRGS Young Researcher Highlight – 2012
- Best Editing Award – PUCRS Short Film Festival

## SOFT SKILLS

Problem solving, analytical thinking, critical thinking, proactivity, continuous learning, teamwork, collaboration, commitment, discipline, innovation, creativity, results-oriented, adaptability.

## CERTIFICAÇÕES

- Java Training: Object-Oriented Programming, Lambdas, Streams, Spring Framework, Spring Boot, JPA, CRUD, validation, and API development with REST (Alura).
- Python Training: Object-Oriented Programming, API Consumption and FastAPI (Alura).
- JavaScript: Asynchronous Development with Promises, DOM, Events, and Advanced Programming (Alura).
- Network Technician Career Path: Computer Networks, TCP/IP, DNS, and Security (Cisco Networking Academy).
- Computational Environments and Connectivity: Network Protocols, Servers, Cloud, and Linux (UniRitter).
- Computer Systems and Security: Operating Systems (Linux, Windows) and Cryptography (UniRitter).
- Amazon AWS Training: Fundamentals of Cloud with Lightsail, EC2, S3, VPC, RDS, and DynamoDB (Alura).
- Agile Methodologies: Scrum Application, Kanban, and Project Management Concepts (Alura).
- Database and Computing Solutions: Object-Oriented Programming in Java, Database Structures with MySQL (UniRitter).
- Software Modeling: DBMS Concepts (Database Management Systems) and MySQL (UniRitter).

- Portuguese: Native Proficiency
- English: Intermediate Level (B1)
